25X1

1. [redacted] Comment: This "program" seems to be above and beyond the regular production plan of this enterprise (Betriebsplan). 25X1

2. [redacted] Comment: The only documentary clue to the dates of this "programming" (columns 1 - 3) is the statement that "Actual Production" ("Ist") figures are extra-plan production between 1 April and 31 August 1954. Since fulfillment percentages (columns 7 - 9) given in the text are actually the percentages of columns 4 - 6 in relation to columns 1 - 3, presumably the programmed production period (columns 1 - 3) is the same as the actual production period (columns 4 - 6), viz, 1 April to 31 August 1954. This conclusion is supported by the fact that, early in the spring, the production of consumer goods in East Germany was stepped up. 25X1

3. [redacted] Comment: These figures are "arrears" (Planrueckstand) from 1 April to 31 August 1954. 25X1

4. [redacted] Comment: This figure takes into account the output of all-purpose electric lamps. 25X1
